Stephanie:

Attached is a memo discussing how CPG has tracked how the SSP 2 program as it has progressed and the current proposed locations based on our understanding. If DEP has specific questions about the status of specific locations that they proposed - we would be happy to discuss them. We are working on some more detail rationale about CPG proposed locations which you asked us to provide for DEP.

AECOM has a draft QAPP Addendum prepared but key work sheets such WS 10, 11, 13, 17 and 18 can not be finalized until EPA and CPG reach a final decision. We would need at least a week to finalize the QAPP after that. We can probably have a QAPP Addendum to EPA after Labor Day as we discussed if we can resolve location and number issues next week and be out in the field in the second half of September.

Have a great weekend.
